

## Alu-Lite® Lightweight Folding Tables

Whether you need folding tables for meetings or banqueting or you need the flexibility to handle both in your venue, the Alu-Lite table is the perfect solution. Alu-Lite folding tables are lightweight and strong, stable and easy to use.

Alu-Lite Table with Standard Leg  
and natural frame

Alu-Lite Table with T-Leg  
and black frame

## Alu-Lite® Lightweight Folding Tables

Flush fit corners are standard on all rectangular Alu-Lite folding tables. The new nylon corners adds strength and improves corner impact resistance. Tables incorporate a stacking buffer that allow tables to be stacked and stored with ease.

Alu-Lite tables are manufactured from aluminium (97%) and laminate resin (3%). All of the aluminium can be recovered and recycled.

Alu-Lite folding tables have folding legs with a patented self locking mechanism and push bar release. Magnets hold the frame securely closed when the tables have been folded.

Alu-Lite tables are suitable for indoor and outdoor use.
