Please contact us for current prices.

Example of a 9ft (2.7m) floor.

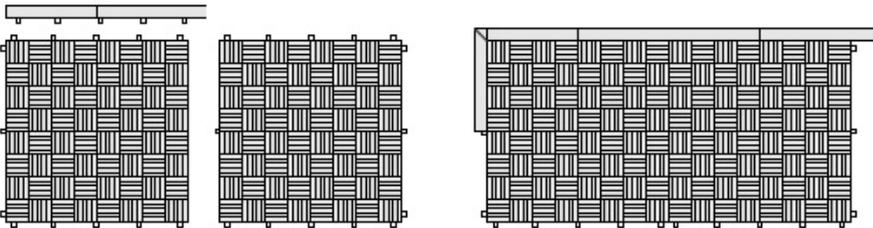

Step 1:
Begin with corner piece.

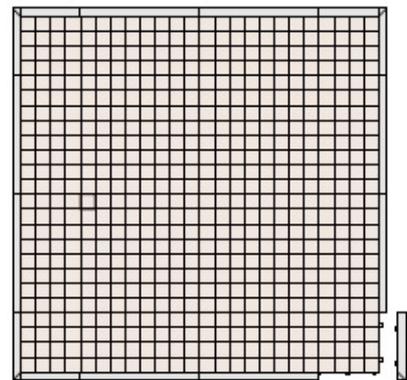

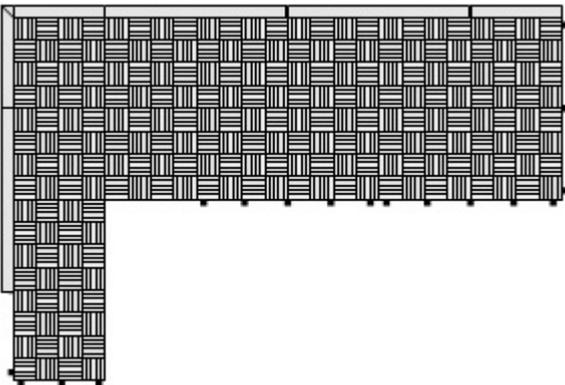

Interlocking floor panel lugs.

Step 2:
Continue with additional pieces and add edging strips in progression.
Note the position of the special edge strips for the corners.

Step 3:
Begin second row with half width panel and add edging strip.

Step 4:
Continue with additional pieces staggering the panels as shown above.
Continue adding edging strips as you progress until the floor is complete.
